Re: On the Ball Computers / Haven partnership

This letter serves to confirm that The Haven Night Shelter Organisation values the partnership established between Kim Palmer's On the Ball Computers and The Haven.

Their expertise in training and setting up of training opportunities for our clients and staff has proven to be invaluable.

We are grateful for the services of On The Ball computers and the funding by Caltex South Africa for enabling our clients and staff to up skill themselves. The opportunities opened up for the participants invariably enables to them being able to take up more sustainable livelihoods.

Thank you.

Kindest regards,

Hassan Khan (CEO)
